

## DUST COVER INTERFERENCE

- MY 2016 Shimano Nexus 8 hubs use a new dust cover that will interfere with the Gates 22t CDX sprocket.
- Shimano offers a B-spec dust cover that is narrower, and will not interfere with the 22t sprocket.
- The 24t CDX sprocket will not interfere with either A-spec or B-spec dust covers.

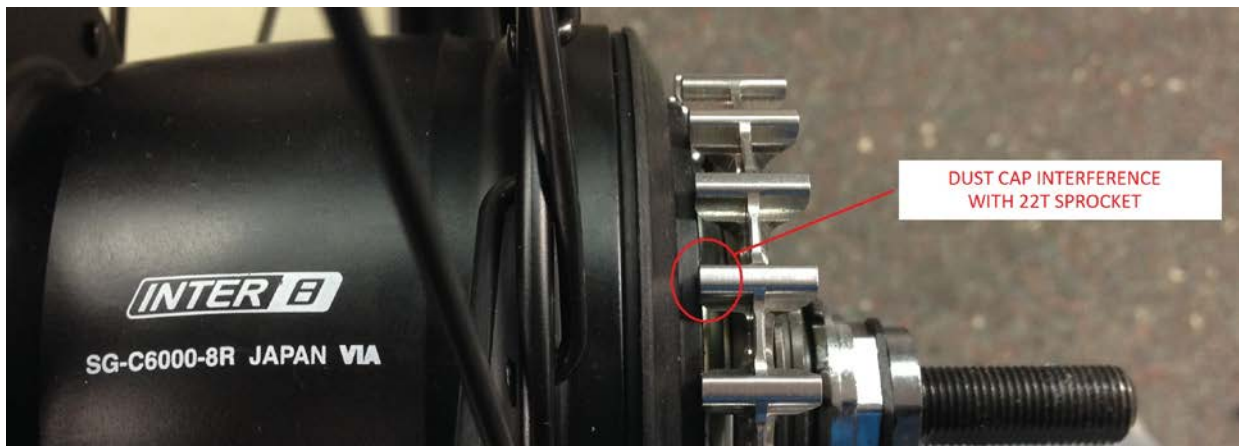

Figure 1: Interference between A-spec dust cover and 22t CDX Sprocket

Table 1: Shimano B-Spec Product Information

SPART_NO	PRODUCT_CD	DESCRIPTION
