

20 Jul 2020 (supersedes 1 Jul 2020)

BOSCH GEN3 GUARD OFFSET

Gates made a running change to the guard offset on several Bosch GEN3 spider assemblies. This change moved the guard from a +1.2 offset to a +3.8 offset, moving the guard 2.6mm further outboard. The rest of the assembly - including belt line - remained unchanged.

20 JUL 2020 UPDATE: Due to potential interference issues for a limited number of customers who utilize both a sprocket guard and a belt guard/enclosure, Gates will revert to Bosch GEN3 assemblies using the +1.2mm offset guard. New Product Numbers will be used going forward. Product Numbers for the +3.8mm offset guard will become obsolete once the production transition is made, targeted for SEP 2020.

Please refer to the following charts to understand availability and what will be discontinued:
