## Bosch GEN3 Active Line, Active Line Plus

Spider-sprocket assembly with or without Alloy ISO Guard

**NEW** 6mm Offset Node Options - Compatible with all Bosch systems and covers

Shimano (43.7mm beltline) – 46, 50, 55, 60T

NuVinci (45.5mm beltline) – 46, 50, 55, 60T

**NEW** Centered Node (No-Offset) Options – Some limitations on Bosch cover compatibility

Rohloff (54.7mm beltline) – 46, 50, 55, 60T (compatible with all Bosch covers)

Shimano/NuVinci (46.0mm beltline) – 50, 55, 60T

Unified 46.0mm beltline requires new SureFit XMN+2.7 Shimano sprockets

Compatible with ACTIVE LINE PLUS Bosch Plastic Covers

Potential interference with ACTIVE LINE Bosch Plastic Covers – custom cover may be required.

**Black** locknut available from Gates, purchased separately

\*See important details in updated eBike Integration Manual

## Bosch GEN2 Performance Line, Performance Line CX

6mm Offset Node Option (Existing)

Shimano (43.5mm beltline) and NuVinci (45.5mm beltline) via shim positions

**NEW** Centered Node (No-Offset) Option

**Rohloff e-Shift** (54.7 beltline) – 22T front sprocket

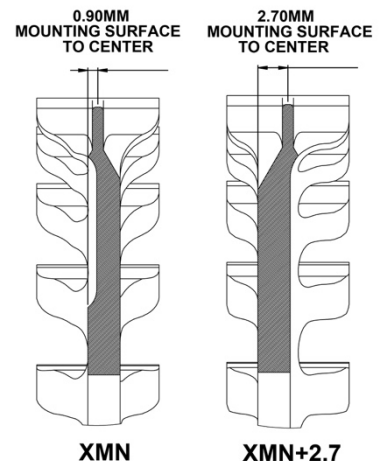

**NEW** More options with new XMN+2.7 sprocket

SureFit sprockets with 2.7mm offset provide new options for Shimano geared hubs with Shimano Steps, Brose, MPF, Panasonic and Bosch motors.

Shimano is providing new cassette joints for additional cable clearance when needed. See Gates Tech Bulletin.

22T and 24T sizes available now

**NEW** SureFit Installation Tool  
Recommended for factory installation of XMN and VMN sprockets
